Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found in claims 1 and 11 are a phaco-emulsification needle with a shaft having a threaded portion and hub, a bolus metal tip with an opening at its distal terminus and wherein the edges of the opening are rounded and smooth. In claim 24 the subject matter not found was a phaco-emulsification needle with a shaft having a threaded portion and hub, a bolus metal tip with two opening at its distal terminus and wherein the edges of the openings are rounded and smooth. Claims 33-35 deal with the method of using a phaco-emulsification needle, wherein the needle is inserted into the eye and then vibrated by ultrasonic vibration to break up the cataract, wherein the pieces of the cataract are aspirated through the aspiration lumen of the needle.

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

The applicant submitted an IDS, but the references in the IDS failed to teach or suggest several elements of the claims. Kadziauskas (USPN 7,037,296 & 6,958,056) fails to suggest and teach a metal tip with a flat distal terminus, and wherein the tip is larger then the shaft (bolus tip) as well as having the tip with multiple openings. The examiner doesn't apply an obvious rejection because the rejection would have been based on hindsight due to the lack of motivation in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew F. DeSanto whose telephone number is 571-272-4957. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nick LUCCHESI can be reached on (571) 272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
